

## **EARLY DEMAND FOR LURI RIVER WATERFRONT PROPERTIES IN JUBA**

**22 November 2010**

A number of residential and commercial plots in the Luri River Waterfront Property development have already been secured, with the launch of this exciting concept only due to take place this evening.

Individuals and Businesses are clearly not wanting to miss out on Juba's only upmarket real estate investment opportunity. 12 residential plots have been secured and 4 larger residential / commercial plots already reserved. Many people are queuing up to ensure that they too can participate in this exciting investment opportunity.

Rubix Energy, a downstream petroleum specialist, focussing on strategic storage as well as creating and running effective fuel supply chains have secured all 13 hectares / 33 acres of the commercial / industrial land. Rubix Management, see the Luri River Waterfront development as the investment opportunity that it has been looking for in Southern Sudan. Providing what is effectively a one stop shop for all of our needs as a heavy investor in the region. We believe that this is the future of development as far as Southern Sudan is concerned.
